Join us for an engaged discussion on:

RE-AIM and PRISM: Relationship, evolution and use

**Tuesday, March 17, 2026
12-1 PM (CT), via Zoom**

Join us for the next session of the **CCTS ExpeDITions Forum**, a monthly series exploring how effective interventions, clinical approaches, and policy innovations are translated into practice across clinical, community, and public health settings. This session will examine the development, connection, and practical application of these widely used implementation science frameworks to enhance research design, evaluation, and real-world impact.

Presented by:

Russell Glasgow, PhD

Research Professor of Family Medicine

Director ACCORDS Dissemination and Implementation Science Program

Co-Director Anschutz Rapid and Rigorous Patient-centered Program (R2P2) Acceleration Initiative

University of Colorado Anschutz Medical Campus
