

UNIVERSITY OF ALABAMA AT BIRMINGHAM

Commencement

FRIDAY, APRIL 30, 2021
AND
SATURDAY, MAY 1, 2021
LEGION FIELD
BIRMINGHAM, ALABAMA

TO OUR GUESTS

Welcome to the Spring 2021 Commencement of The University of Alabama at Birmingham. The pageantry of today's ceremony is the culmination and recognition of years of study, preparation, and achievement of our 80th class of graduates. We hope you find the ceremony both meaningful and memorable, as it reflects the combined efforts of the faculty, the staff, and, of course, our students and their families.

Commencement begins with the traditional academic procession. The graduates are led into Legion Field by marshals who are faculty members in their respective college and schools. The faculty, headed by a distinguished group of emeriti professors, follow in order of academic rank and seniority. The last group to enter is the platform party led by the UAB Academic Mace (see page 12). For the Friday evening ceremony, the mace is carried by David A. Schneider, Ph.D., professor and vice-chair of the Department of Biochemistry and Molecular Genetics and associate dean of Graduate Biomedical Sciences. He also serves as chair of the Biochemistry and Molecular Genetics Tenure and Promotions Committee and the Teaching Committee. He is a recipient of the 2019 UAB President's Award for Excellence in Teaching and the 2014 UAB Graduate Dean's Award for Excellence in Mentorship. Dr. Schneider's research includes characterizing trans-acting factors and enzymatic features that control synthesis of ribosomal RNA by RNA polymerase I as well as anti-cancer drug discovery, viral gene expression and cancer cell growth/proliferation. His research lab has maintained continuous, robust extramural support through the year 2026. For the Saturday ceremonies, the mace is carried by Robert M. Centor, M.D., Professor Emeritus in the Division of Internal Medicine in the Department of Medicine in the School of Medicine, the 2020 Distinguished Faculty Lecturer. Dr. Centor served as associate dean and executive director of the Huntsville Regional Medical Campus from 2005-2017. He is one of the world's leading experts on the sore throat. His seminal work on Group A streptococcal infections as a cause of sore throat is known as the Centor score or Centor criteria in practice guidelines and decision aids for diagnostic purposes. Next are Ray L. Watts, M.D., President of The University of Alabama at Birmingham, members of The Board of Trustees of The University of Alabama System, and representatives from The University of Alabama System's Office. Other persons in the platform party include distinguished guests, as well as UAB senior administration and deans.

The audience is asked to stand as the procession enters the arena and to remain standing through the singing of the National Anthem.

President Watts closes the ceremony after all degrees have been awarded and the UAB Alma Mater has been sung. The audience is asked to stand and to remain standing for the recessional of the platform party. Family and friends are asked to meet the new alumni outside of Legion Field; they will not be allowed on the field.

THE UNIVERSITY OF ALABAMA AT BIRMINGHAM

Since its inception in 1969, the University of Alabama at Birmingham (UAB) has earned international renown for its innovative academic programs, groundbreaking research and scholarship, and leading-edge patient care. The university celebrated its 50th anniversary in 2019 by surpassing a number of significant milestones. UAB was named the top young university in the United States for the second consecutive year — and among the top 12 worldwide — in the Times Higher Education Young University Rankings. UAB also received the Higher Education Excellence in Diversity award from INSIGHT Into Diversity magazine for the third year.

In November, UAB announced a new record total for research funding, with \$602 million in research grants and awards received from November 2018 through October 2019. This was a \$75 million increase compared with 2018; over the past five years, research funding has grown by more than \$154 million. UAB ranks in the top 10 among all public universities in funding from the National Institutes of Health.

With 23,000 employees, UAB is the largest single-site employer in the state of Alabama with an annual economic impact of more than \$7.1 billion. Due to its growing and increasingly residential campus in the heart of a vibrant and diverse community, the university offers unparalleled opportunities for teaching, research, scholarship, and service. The campus consists of more than 150 buildings spread over 100 city blocks within walking distance of downtown Birmingham.

UAB continues to establish innovative academic programs across campus. In the past two years, new bachelor's degrees have launched in Immunology, Genetics and Genomic Sciences, Medical Sociology and Bioinformatics, along with master's degree programs in Data Science and Engineering Management. Bachelor's degrees in Entrepreneurship and Cancer Biology, along with a doctoral program in Neuro-engineering, are in development.

The UAB Honors College provides enhanced experiential learning opportunities to more than 2,000 high-ability undergraduates. In the 2020 U.S. News & World Report "Best Graduate Schools" rankings, UAB has 14 programs in the top 25, including a master's in health administration program that ranks first in the nation.

UAB is home to the largest hospital in Alabama and one of the largest public hospitals in the United States. Last year, UAB and Children's of Alabama treated more patients than ever: more than 1.7 million. UAB also houses the state's only level 1 adult trauma center and the O'Neal Comprehensive Cancer Center, the only National Cancer Institute-designated comprehensive cancer center in Alabama. The Comprehensive Transplant Institute, which has performed the second most kidney transplants in the history of medicine, is currently conducting the longest-ever kidney transplant chain at a single site.

UAB continues to attract the best and brightest students from Alabama, the nation, and around the world. UAB's international students, faculty, staff, and visiting scholars represent more than 100 countries. The university welcomed 2,154 freshman enrollees in fall 2020, part of a student population that passed 22,500 for the first time. That marks the fifth straight year of record enrollment.

UAB ALMA MATER

The UAB Alma Mater was composed by Birmingham native David McNeeley in 2003. A competition was held, and a committee comprising UAB faculty, administrators, students, and alumni selected it from numerous submissions. The Alma Mater expresses the unifying sentiments of pride, respect, and cherished memories for the university.

THE ACADEMIC COSTUME

The custom of wearing academic caps, gowns, and hoods can be traced to the twelfth century. At that time both men and women wore long, full, flowing robes. This mode of dress gradually changed so that by the end of the seventeenth century only legal and official personages wore gowns. However, certain guilds and universities established the tradition of wearing prescribed apparel. In the universities, the details of the dress distinguished different degrees of learning and the faculty. In the United States, as a result of our English heritage, caps and gowns have been used from colonial times, especially at our older universities such as Columbia (King's College), New York University, University of Pennsylvania, Bryn Mawr, Yale, and others. Around 1885 there was a widespread student movement to wear caps and gowns at commencement. The faculties approved this dignified graduation dress and soon adopted the custom of wearing gowns at academic ceremonies.

In 1895, the Intercollegiate Commission presented American institutions of higher learning the Intercollegiate Code. This code regulated the design of gowns and hoods as well as the colors and materials to be used. The code was subsequently adopted by more than 95 percent of U.S. colleges and universities. It has given America an impressive but simple method of signifying scholastic honors.

The code provides for three types of gowns. The gown for the bachelor's degree is made of green material and has long pointed sleeves. The gown for the master's degree is made with an oblong sleeve open at the wrist. The rear part of this oblong shape is square cut and the front part has an arc cut away. The gown for the doctor's degree has bell-shaped sleeves. It is faced with velvet and has three bars of velvet on each sleeve. The color of the velvet trim may be black or the same color as the velvet which edges the gown.

The green oxford or mortarboard-style cap is worn for all degrees, but only the doctor's cap may be made of velvet and have a gold tassel.

The hood is the most important and distinctive feature of the American code. An understanding of the system makes it possible to distinguish readily bachelor's, master's, and doctor's hoods and to recognize the university which gave the degree. The doctor's hood is four feet in length and made with a wide panel. The master's and bachelor's hoods are three and one-half and three feet in length, respectively. They are made of black cloth and are lined with silk in the official academic colors of the institution which conferred the degree. The hoods worn by graduates of The University of Alabama at Birmingham are lined in green silk with a gold chevron. The trim of all hoods is velvet, two inches, three inches, and five inches wide for bachelor's, master's, and doctor's degrees, respectively. The color of the velvet trim indicates the discipline or faculty to which the degree pertains. Each discipline has been assigned a different color by the Intercollegiate Code. The following is a list of colors assigned to several of the disciplines within The University of Alabama at Birmingham.

Arts	<i>White</i>	Nursing	<i>Apricot</i>
Business	<i>Drab</i>	Optometry	<i>Seafoam green</i>
Dentistry	<i>Lilac</i>	Philosophy	<i>Dark Blue</i>
Education	<i>Light Blue</i>	Public Health	<i>Salmon Pink</i>
Engineering	<i>Orange</i>	Science	<i>Gold-yellow</i>
Fine Arts	<i>Brown</i>	Social Science	<i>Citron</i>
Medicine	<i>Green</i>		

A few years ago some Ivy League colleges approved the wearing of gowns which were not black but the official school colors. This trend has expanded so that currently many colleges and universities have adopted special colored gowns. The members of The Board of Trustees of The University of Alabama system wear a green gown with gold trim at The University of Alabama at Birmingham academic ceremonies. Colored gowns worn by many faculty identify the doctoral degrees of many American and foreign universities.

THE CEREMONIAL ACADEMIC MACE

The ceremonial academic mace appeared in European universities during the fourteenth century and represented the amalgamation of two much older staff-like devices of similar length and shape. These were the regal scepter and the medieval battle mace. Kings throughout history have carried scepters as insignia of the lawful authority of just rulers. The battle mace was first used by medieval princes as an effective hand weapon in combat.

In the fourteenth century, the royal scepter and the battle mace were combined to produce the ceremonial academic mace. It was carried before royalty, mayors of cities, and chief officers of the medieval universities.

In modern times, the mace is used on ceremonial occasions in the life of the university. In commencement exercises, the mace specifically indicates the authority of the university president to award degrees. The mace immediately precedes the presidential party in the ceremonial procession. For the Friday evening ceremony, the mace is carried by David A. Schneider, Ph.D., professor and vice-chair of the Department of Biochemistry and Molecular Genetics and associate dean of Graduate Biomedical Sciences. He also serves as chair of the Biochemistry and Molecular Genetics Tenure and Promotions Committee and the Teaching Committee. He is a recipient of the 2019 UAB President's Award for Excellence in Teaching and the 2014 UAB Graduate Dean's Award for Excellence in Mentorship. Dr. Schneider's research includes characterizing trans-acting factors and enzymatic features that control synthesis of ribosomal RNA by RNA polymerase I as well as anti-cancer drug discovery, viral gene expression and cancer cell growth/proliferation. His research lab has maintained continuous, robust extramural support through the year 2026. For the Saturday ceremonies, the mace is carried by Robert M. Centor, M.D., Professor Emeritus in the Division of Internal Medicine in the Department of Medicine in the School of Medicine, the 2020 Distinguished Faculty Lecturer. Dr. Centor served as associate dean and executive director of the Huntsville Regional Medical Campus from 2005-2017. He is one of the world's leading experts on the sore throat. His seminal work on Group A streptococcal infections as a cause of sore throat is known as the Centor score or Centor criteria in practice guidelines and decision aids for diagnostic purposes.

The UAB mace is fashioned in three metals: brass, bronze, and stainless steel. The use of these metals--especially the stainless steel--is intended to signify Birmingham's traditional role as an iron and steel producing center.

At the lower end of the mace are three medallions of enamel on copper. One medallion bears the image of the lamp of knowledge. Another bears the traditional symbol of the physician, the Caduceus (Aesculapius, Greco-Roman god of medicine, was embodied at the temple of Kos as a statue holding a serpent, a symbol of long life, healing, and knowledge. A staff and a second serpent were added later to form the Caduceus). The third medallion is the UAB logo in gold on a green enamel background with a red enamel glow on the collar to symbolize the molten metal characteristic of old Birmingham and its blast furnaces.

The UAB mace and its holder were commissioned, designed, and executed in 1989 by the noted Alabama sculptor, Cordray Parker, with the help of Heidi J. Bowman on the enameled medallions. The mace was made possible through the generosity of the late Samuel B. Barker, Ph.D., and his late wife, Justine. Dr. Barker, distinguished professor emeritus and dean emeritus of UAB, was the first dean of the UAB Graduate School and a leading patron of the arts in Birmingham

THE ACADEMIC GONFALONS

The academic gonfalons feature the UAB logo, the university seal and the name of the schools in white on a background of black, in keeping with the traditional black academic gowns worn by students and faculty. Each gonfalon also features a border of the school's academic color, which is repeated across the entire back of the banner. The exception is the UAB gonfalon, which features white letters on a green background, bordered and backed in gold, denoting UAB's official colors.

2021 RECIPIENT OF THE UAB PRESIDENT’S MEDAL

James T. “Jabo” Waggoner, Alabama State Senator

Citation Excerpts Read by President Ray L. Watts, M.D.

Senator James T. “Jabo” Waggoner has served as a dedicated, skillful and widely respected statesman for more than five decades. Now in his eighth term representing the 16th district in the Alabama Senate, he has the longest service record of any legislator in the history of this state.

A Birmingham native, Senator Waggoner earned his B.A. from Birmingham-Southern College and his Juris Doctorate from Birmingham School of Law. He has received a number of awards for his extraordinary public service, including the Ronald Reagan Lifetime Achievement Award, the Alabama State Council on the Arts Council Legacy Award, and the Birmingham-Southern Distinguished Alumni Award. He has also been inducted into the Birmingham-Southern College Sports Hall of Fame (basketball) and recently received the Distinguished Alabama Sportsman Award by the Alabama Sports Hall of Fame.

Senator Waggoner served in the Alabama House of Representatives from 1966-1983 and was elected to the Alabama Senate in 1990, where he served as minority leader from 2002 to 2010 and majority leader from 2010 to 2014. He is currently chair of both the Senate Rules Committee and the Jefferson County Local Legislation Committee, and vice chair of the Senate Confirmations Committee. Additionally, he serves on the Committees on Banking and Insurance, Finance and Taxation Education, Finance and Taxation General Fund, and Shelby County Local Legislation.

Senator Waggoner’s visionary leadership in the legislature played a significant role in UAB’s historical growth and success. In 1975, he sponsored House Bill 435 granting UAB an \$8.5 million appropriation from the Special Education Trust Fund for the purchase of urban renewal land around the university complex. This expansion of roughly 35 city blocks more than doubled the footprint of campus at that time, allowing for tremendous growth in the academic and clinical enterprises, research programs and economic development efforts to benefit greater numbers of citizens throughout the city, state and region. UAB now spans 100 city blocks, is the state’s largest employer with an economic impact exceeding \$7 billion annually, and has been named the Top Young University in the U.S. for a second consecutive year (and 12th globally) in the Times Higher Education World University Rankings.

Senator Waggoner has also been active in many civic and educational organizations, serving on the executive committee of Birmingham Business Alliance, the Greater Birmingham Convention and Visitors Bureau, and Faulkner University Board of Trustees. He is also a member of Civitan International, the Masons and Shriners, the Monday Morning Quarterback Club, and the Chambers of Commerce of Hoover, Homewood, Shelby County and Vestavia Hills.

Senator Waggoner and his wife, Marilyn, are members of Homewood Church of Christ and the parents of four children, seven grandchildren and one great grandchild.

In recognition of his exemplary service to UAB and our community, the state of Alabama, and our nation, The University of Alabama at Birmingham is privileged to confer upon Senator James T. “Jabo” Waggoner the 2021 President’s Medal.

UAB NATIONAL ALUMNI SOCIETY DISTINGUISHED ALUMNI AWARD

The UAB National Alumni Society Distinguished Alumni Award recognizes and honors a graduate of UAB who has made significant contributions to the Society and whose accomplishments and career have brought great credit to The University of Alabama at Birmingham. The honoree must hold an earned degree or certificate from UAB, be a member in good standing of the UAB National Alumni Society, and have demonstrated a continuing interest in UAB.

The recipient for the award is selected by the Board of Directors of the UAB National Alumni Society based on recommendations and nominations from the UAB administration, members of the National Alumni Society, and other groups associated with UAB.

Dear UAB Graduate,

Today, all the hard work and dedication you put into getting your degree is realized as you graduate! On behalf of the UAB National Alumni Society, I would like to applaud you for achieving this milestone.

Now, you are able to consider yourself a part of an incredible network of more than 150,000 alumni worldwide who call the University of Alabama at Birmingham their alma mater. As you join this tremendous network of alumni, know that you have been equipped with an education that is globally recognized and is one that can give you a great sense of pride.

As a graduate, you automatically become a member of the National Alumni Society. There are no dues or sign-ups. Simply put, you are IN! All our alumni are entitled to the wealth of services, resources, and benefits of being a member of the National Alumni Society.

I encourage you to stay connected to UAB and the National Alumni Society. There are many ways to stay active through alumni activities.

CANDIDATES FOR DEGREES

HONORS DESIGNATIONS

The University of Alabama at Birmingham awards degrees with special designations to students who have achieved meritorious scholastic standing. Honor designations for undergraduates are based on grades reported prior to the completion of spring semester and may not reflect all earned honors. The designations are as follows:

Designation	Grade Point Average
	(A=4.00)
Summa Cum Laude	3.90 - 4.00
Magna Cum Laude	3.70 - 3.89
Cum Laude	3.50 - 3.69

An undergraduate student graduating with Summa, Magna, or Cum Laude honors is also accorded the privilege of wearing a gold honors cord.

The UAB Honors College brings together high-achieving intellectually curious students from all majors to form a close-knit community of emerging scholars. Honors students may follow a personalized curriculum or specialize in global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). Honors students are recognized with “distinguished honors” for earning 18 hours of honors credit and “high distinguished honors” for 30 or more hours of honors credits. Students completing honors requirements wear a white cord and a UAB Honors College medallion.

School of Dentistry – The “With Honors” designation indicates at least a B average, completion of an approved plan of study and research, and completion of a relevant thesis.

Schools of Medicine and Optometry – Honors are given to those in the upper ten percent of their class based on overall grade point average. The designation Magna Cum Laude and Summa Cum Laude are not routinely awarded. Any graduate receiving such a designation is outstanding in ability and performance.

Veterans who have served in the United States Armed Forces wear a red, white and blue cord.

ACADEMIC

This is a list of candidates for graduation unless otherwise noted, prepared before final grades were reported, and inclusion therein does not constitute evidence of graduation.
