AND  
SATURDAY, DECEMBER 15, 2018

## TO OUR GUESTS

Welcome to the Fall 2018 Commencement of The University of Alabama at Birmingham. The pageantry of today's ceremony is the culmination and recognition of years of study, preparation, and achievement of our 73rd class of graduates. We hope you find the ceremony both meaningful and memorable, as it reflects the combined efforts of the faculty, the staff, and, of course, our students and their families.

Commencement begins with the traditional academic procession. The graduates are led into the Bartow Arena by marshals who are faculty members in their respective college and schools. The faculty, headed by a distinguished group of emeriti professors, follow in order of academic rank and seniority. The last group to enter is the platform party led by the UAB Academic Mace (see page 11). For the Friday evening ceremony, the mace is carried by Yogesh K. Vohra, Ph.D., Professor, University Scholar, and Associate Dean in the Department of Physics in the College of Arts and Sciences. He was recently awarded a graduate training grant from the U.S. Department of Education entitled "Doctoral Fellowship in Interdisciplinary Materials Science Program at The University of Alabama at Birmingham." Dr. Vohra has an extensive record in obtaining support for research, graduate fellowships, and undergraduate research experiences. For the Saturday ceremony, the mace is carried by Michael E. Sloane, Ph.D., the recipient of the 2018 Ellen Gregg Ingalls/UAB National Alumni Society Award for Lifetime Achievement in Teaching. Dr. Sloane is an Associate Professor in the Department of Psychology in the UAB College of Arts and Sciences. The Commencement Marshal, Gregg M. Janowski, Ph.D., follows the UAB Academic Mace. Next are Ray L. Watts, M.D., President of The University of Alabama at Birmingham, members of The Board of Trustees of The University of Alabama System, and representatives from The University of Alabama System's Office. Other persons in the platform party include distinguished guests, as well as UAB senior administration and deans.

The audience is asked to stand as the procession enters the arena and to remain standing through the singing of the National Anthem.

President Watts closes the ceremony after all degrees have been awarded and the UAB Alma Mater has been sung. The audience is asked to stand and to remain standing for the recessional of the platform party. Family and friends are asked to meet the new alumni on the concourse or outside of Bartow Arena; they will not be allowed on the arena floor.

**Commencement is a festive time for all of our honorees and their guests. Please refrain from loud celebration of your graduate since it detracts from the recognition of the following new alumni. Your cooperation is appreciated.**

# THE UNIVERSITY OF ALABAMA AT BIRMINGHAM

Since its inception in 1969, the University of Alabama at Birmingham (UAB) has earned international renown for its innovative academic programs, groundbreaking research and scholarship, and leading-edge patient care. In 2018, UAB was named the top young university in the United States, and in the top 10 worldwide, in the Times Higher Education World University Rankings, Young University Rankings. The university also received a Higher Education Excellence in Diversity award from INSIGHT Into Diversity magazine in 2018.

UAB received \$527 million annually in research grants and awards from November 2017 through October 2018, surpassing \$500 million for the first time. UAB ranks in the top 10 among all public universities in funding from the National Institutes of Health.

With 23,000 employees, UAB is the largest single-site employer in the state of Alabama with an annual state economic impact of more than \$7.1 billion. Due to its growing and increasingly residential campus in the heart of a vibrant and diverse community, the university offers unparalleled opportunities for teaching, research, scholarship, and service. The campus consists of more than 150 buildings spread over 100 city blocks within walking distance of downtown Birmingham.

UAB offers undergraduates opportunities to participate in closely mentored research through such innovative academic programs as the Undergraduate Neuroscience Program and majors in Public Health and Biomedical Sciences. A new bachelor's degree program in Bioinformatics and a new master's program in Data Science began in fall 2018, and a new master's program in Engineering Management has been approved to begin in spring 2019.

The UAB Honors College provides enhanced experiential learning opportunities to more than 2,000 high-ability undergraduates. In the 2019 U.S. News & World Report "Best Graduate Schools" rankings, UAB has 13 programs in the top 25, including a master's in health administration program that ranks second in the nation.

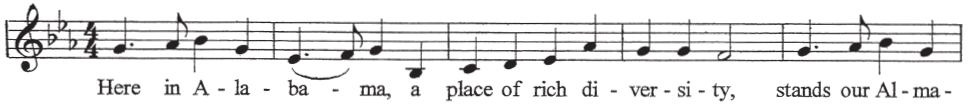

UAB is home to the largest hospital in Alabama and one of the largest public hospitals in the United States, with more than 1 million patient visits annually. UAB also houses the state's only level 1 adult trauma center and the only National Cancer Institute-designated Comprehensive Cancer Center in Alabama and a five-state region. The Comprehensive Transplant Institute, which has performed the second most kidney transplants in the history of medicine, is currently conducting the longest-ever kidney transplant chain at a single site.

UAB continues to attract the best and brightest students from Alabama, the nation, and around the world. UAB's international students, faculty, staff, and visiting scholars represent more than 100 countries. In fall 2018, the university experienced its third straight year of record enrollment, with 21,923 total students enrolled and a freshman class that had an average ACT of 25.2 and a GPA of 3.73.

# UAB ALMA MATER

The UAB Alma Mater was composed by Birmingham native David McNeeley in 2003. A competition was held, and a committee comprising UAB faculty, administrators, students, and alumni selected it from numerous submissions. The Alma Mater expresses the unifying sentiments of pride, respect, and cherished memories for the university.

## THE ACADEMIC COSTUME

The custom of wearing academic caps, gowns, and hoods can be traced to the twelfth century. At that time both men and women wore long, full, flowing robes. This mode of dress gradually changed so that by the end of the seventeenth century only legal and official personages wore gowns. However, certain guilds and universities established the tradition of wearing prescribed apparel. In the universities, the details of the dress distinguished different degrees of learning and the faculty. In the United States, as a result of our English heritage, caps and gowns have been used from colonial times, especially at our older universities such as Columbia (King's College), New York University, University of Pennsylvania, Bryn Mawr, Yale, and others. Around 1885 there was a widespread student movement to wear caps and gowns at commencement. The faculties approved this dignified graduation dress and soon adopted the custom of wearing gowns at academic ceremonies.

In 1895, the Intercollegiate Commission presented American institutions of higher learning the Intercollegiate Code. This code regulated the design of gowns and hoods as well as the colors and materials to be used. The code was subsequently adopted by more than 95 percent of U.S. colleges and universities. It has given America an impressive but simple method of signifying scholastic honors.

The code provides for three types of gowns. The gown for the bachelor's degree is made of green material and has long pointed sleeves. The gown for the master's degree is made with an oblong sleeve open at the wrist. The rear part of this oblong shape is square cut and the front part has an arc cut away. The gown for the doctor's degree has bell-shaped sleeves. It is faced with velvet and has three bars of velvet on each sleeve. The color of the velvet trim may be black or the same color as the velvet which edges the gown.

The green oxford or mortarboard-style cap is worn for all degrees, but only the doctor's cap may be made of velvet and have a gold tassel.

The hood is the most important and distinctive feature of the American code. An understanding of the system makes it possible to distinguish readily bachelor's, master's, and doctor's hoods and to recognize the university which gave the degree. The doctor's hood is four feet in length and made with a wide panel. The master's and bachelor's hoods are three and one-half and three feet in length, respectively. They are made of black cloth and are lined with silk in the official academic colors of the institution which conferred the degree. The hoods worn by graduates of The University of Alabama at Birmingham are lined in green silk with a gold chevron. The trim of all hoods is velvet, two inches, three inches, and five inches wide for bachelor's, master's, and doctor's degrees, respectively. The color of the velvet trim indicates the discipline or faculty to which the degree pertains. Each discipline has been assigned a different color by the Intercollegiate Code. The following is a list of colors assigned to several of the disciplines within The University of Alabama at Birmingham.

Arts	<i>White</i>	Nursing	<i>Apricot</i>
Business	<i>Drab</i>	Optometry	<i>Seafoam green</i>
Dentistry	<i>Lilac</i>	Philosophy	<i>Dark Blue</i>
Education	<i>Light Blue</i>	Public Health	<i>Salmon Pink</i>
Engineering	<i>Orange</i>	Science	<i>Gold-yellow</i>
Fine Arts	<i>Brown</i>	Social Science	<i>Citron</i>
Medicine	<i>Green</i>		

A few years ago some Ivy League colleges approved the wearing of gowns which were not black but the official school colors. This trend has expanded so that currently many colleges and universities have adopted special colored gowns. The members of The Board of Trustees of The University of Alabama system wear a green gown with gold trim at The University of Alabama at Birmingham academic ceremonies. Colored gowns worn by many faculty identify the doctoral degrees of many American and foreign universities.

## THE CEREMONIAL ACADEMIC MACE

The ceremonial academic mace appeared in European universities during the fourteenth century and represented the amalgamation of two much older staff-like devices of similar length and shape. These were the regal scepter and the medieval battle mace. Kings throughout history have carried scepters as insignia of the lawful authority of just rulers. The battle mace was first used by medieval princes as an effective hand weapon in combat.

In the fourteenth century, the royal scepter and the battle mace were combined to produce the ceremonial academic mace. It was carried before royalty, mayors of cities, and chief officers of the medieval universities.

In modern times, the mace is used on ceremonial occasions in the life of the university. In commencement exercises, the mace specifically indicates the authority of the university president to award degrees. The mace immediately precedes the presidential party in the ceremonial procession. For the Friday evening ceremony, the mace is carried by Yogesh K. Vohra, Ph.D., Professor, University Scholar, and Associate Dean in the Department of Physics in the College of Arts and Sciences. He was recently awarded a graduate training grant from the U.S. Department of Education entitled "Doctoral Fellowship in Interdisciplinary Materials Science Program at The University of Alabama at Birmingham." Dr. Vohra has an extensive record in obtaining support for research, graduate fellowships, and undergraduate research experiences. For the Saturday ceremony, the mace is carried by Michael E. Sloane, Ph.D., the recipient of the 2018 Ellen Gregg Ingalls/UAB National Alumni Society Award for Lifetime Achievement in Teaching. Dr. Sloane is an Associate Professor in the Department of Psychology in the UAB College of Arts and Sciences.

The UAB mace is fashioned in three metals: brass, bronze, and stainless steel. The use of these metals--especially the stainless steel--is intended to signify Birmingham's traditional role as an iron and steel producing center.

At the lower end of the mace are three medallions of enamel on copper. One medallion bears the image of the lamp of knowledge. Another bears the traditional symbol of the physician, the Caduceus (Aesculapius, Greco-Roman god of medicine, was embodied at the temple of Kos as a statue holding a serpent, a symbol of long life, healing, and knowledge. A staff and a second serpent were added later to form the Caduceus). The third medallion is the UAB logo in gold on a green enamel background with a red enamel glow on the collar to symbolize the molten metal characteristic of old Birmingham and its blast furnaces.

The UAB mace and its holder were commissioned, designed, and executed in 1989 by the noted Alabama sculptor, Cordray Parker, with the help of Heidi J. Bowman on the enameled medallions. The mace was made possible through the generosity of the late Samuel B. Barker, Ph.D., and his late wife, Justine. Dr. Barker, distinguished professor emeritus and dean emeritus of UAB, was the first dean of the UAB Graduate School and a leading patron of the arts in Birmingham.

## THE ACADEMIC GONFALONS

The academic gonfalons, or banners, are carried in the procession by honor students from each school who lead their fellow students to their seats in the arena. The gonfalons feature the UAB logo, the university seal and the name of the schools in white on a background of black, in keeping with the traditional black academic gowns worn by students and faculty. Each gonfalon also features a border of the school's academic color, which is repeated across the entire back of the banner. The exception is the UAB gonfalon, which features white letters on a green background, bordered and backed in gold, denoting UAB's official colors.

# CANDIDATES FOR DEGREES

## HONORS DESIGNATIONS

The University of Alabama at Birmingham awards degrees with special designations to students who have achieved meritorious scholastic standing. Honor designations for undergraduates are based on grades reported prior to the completion of spring semester and may not reflect all earned honors. The designations are as follows:

<b>Designation</b>	<b>Grade Point Average (A=4.00)</b>
Summa Cum Laude	3.90 - 4.00
Magna Cum Laude	3.70 - 3.89
Cum Laude	3.50 - 3.69

An undergraduate student graduating with Summa, Magna, or Cum Laude honors is also accorded the privilege of wearing a gold honors cord.

**The UAB Honors College** brings together high-achieving intellectually curious students from all majors to form a close-knit community of emerging scholars. Honors students may follow a personalized curriculum or specialize in experiential learning (ELSP), global and community leadership (GCL), science and technology (STH), or interdisciplinary arts and sciences (UHP). Honor students are recognized with “distinguished honors” for earning 18 hours of honors credit and “high distinguished honors” for 30 or more hours of honors credits. Students completing honors requirements wear a white cord and a UAB Honors College medallion.

**School of Dentistry** – The “With Honors” designation indicates at least a B average, completion of an approved plan of study and research, and completion of a relevant thesis.

**Schools of Medicine and Optometry** – Honors are given to those in the upper ten percent of their class based on overall grade point average. The designation Magna Cum Laude and Summa Cum Laude are not routinely awarded. Any graduate receiving such a designation is outstanding in ability and performance.

Veterans who have served in the United States Armed Forces wear a red, white and blue cord.

## ACADEMIC

This is a list of candidates for December 2018 graduation unless otherwise noted, prepared before final grades were reported, and inclusion therein does not constitute evidence of graduation.
