Informatics **Center for Clinical and Translational Science**

CCTS Informatics connects investigators with biomedical data and analytics.

- National Data Sets
- UAB EHR (Cerner)
- Medical Note

Data

rna

nte

- **Specimen Collections**
- Genomic Data
- Social Determinants
- **IRB** Protocols
- Trial Management Data

Scientific Experts

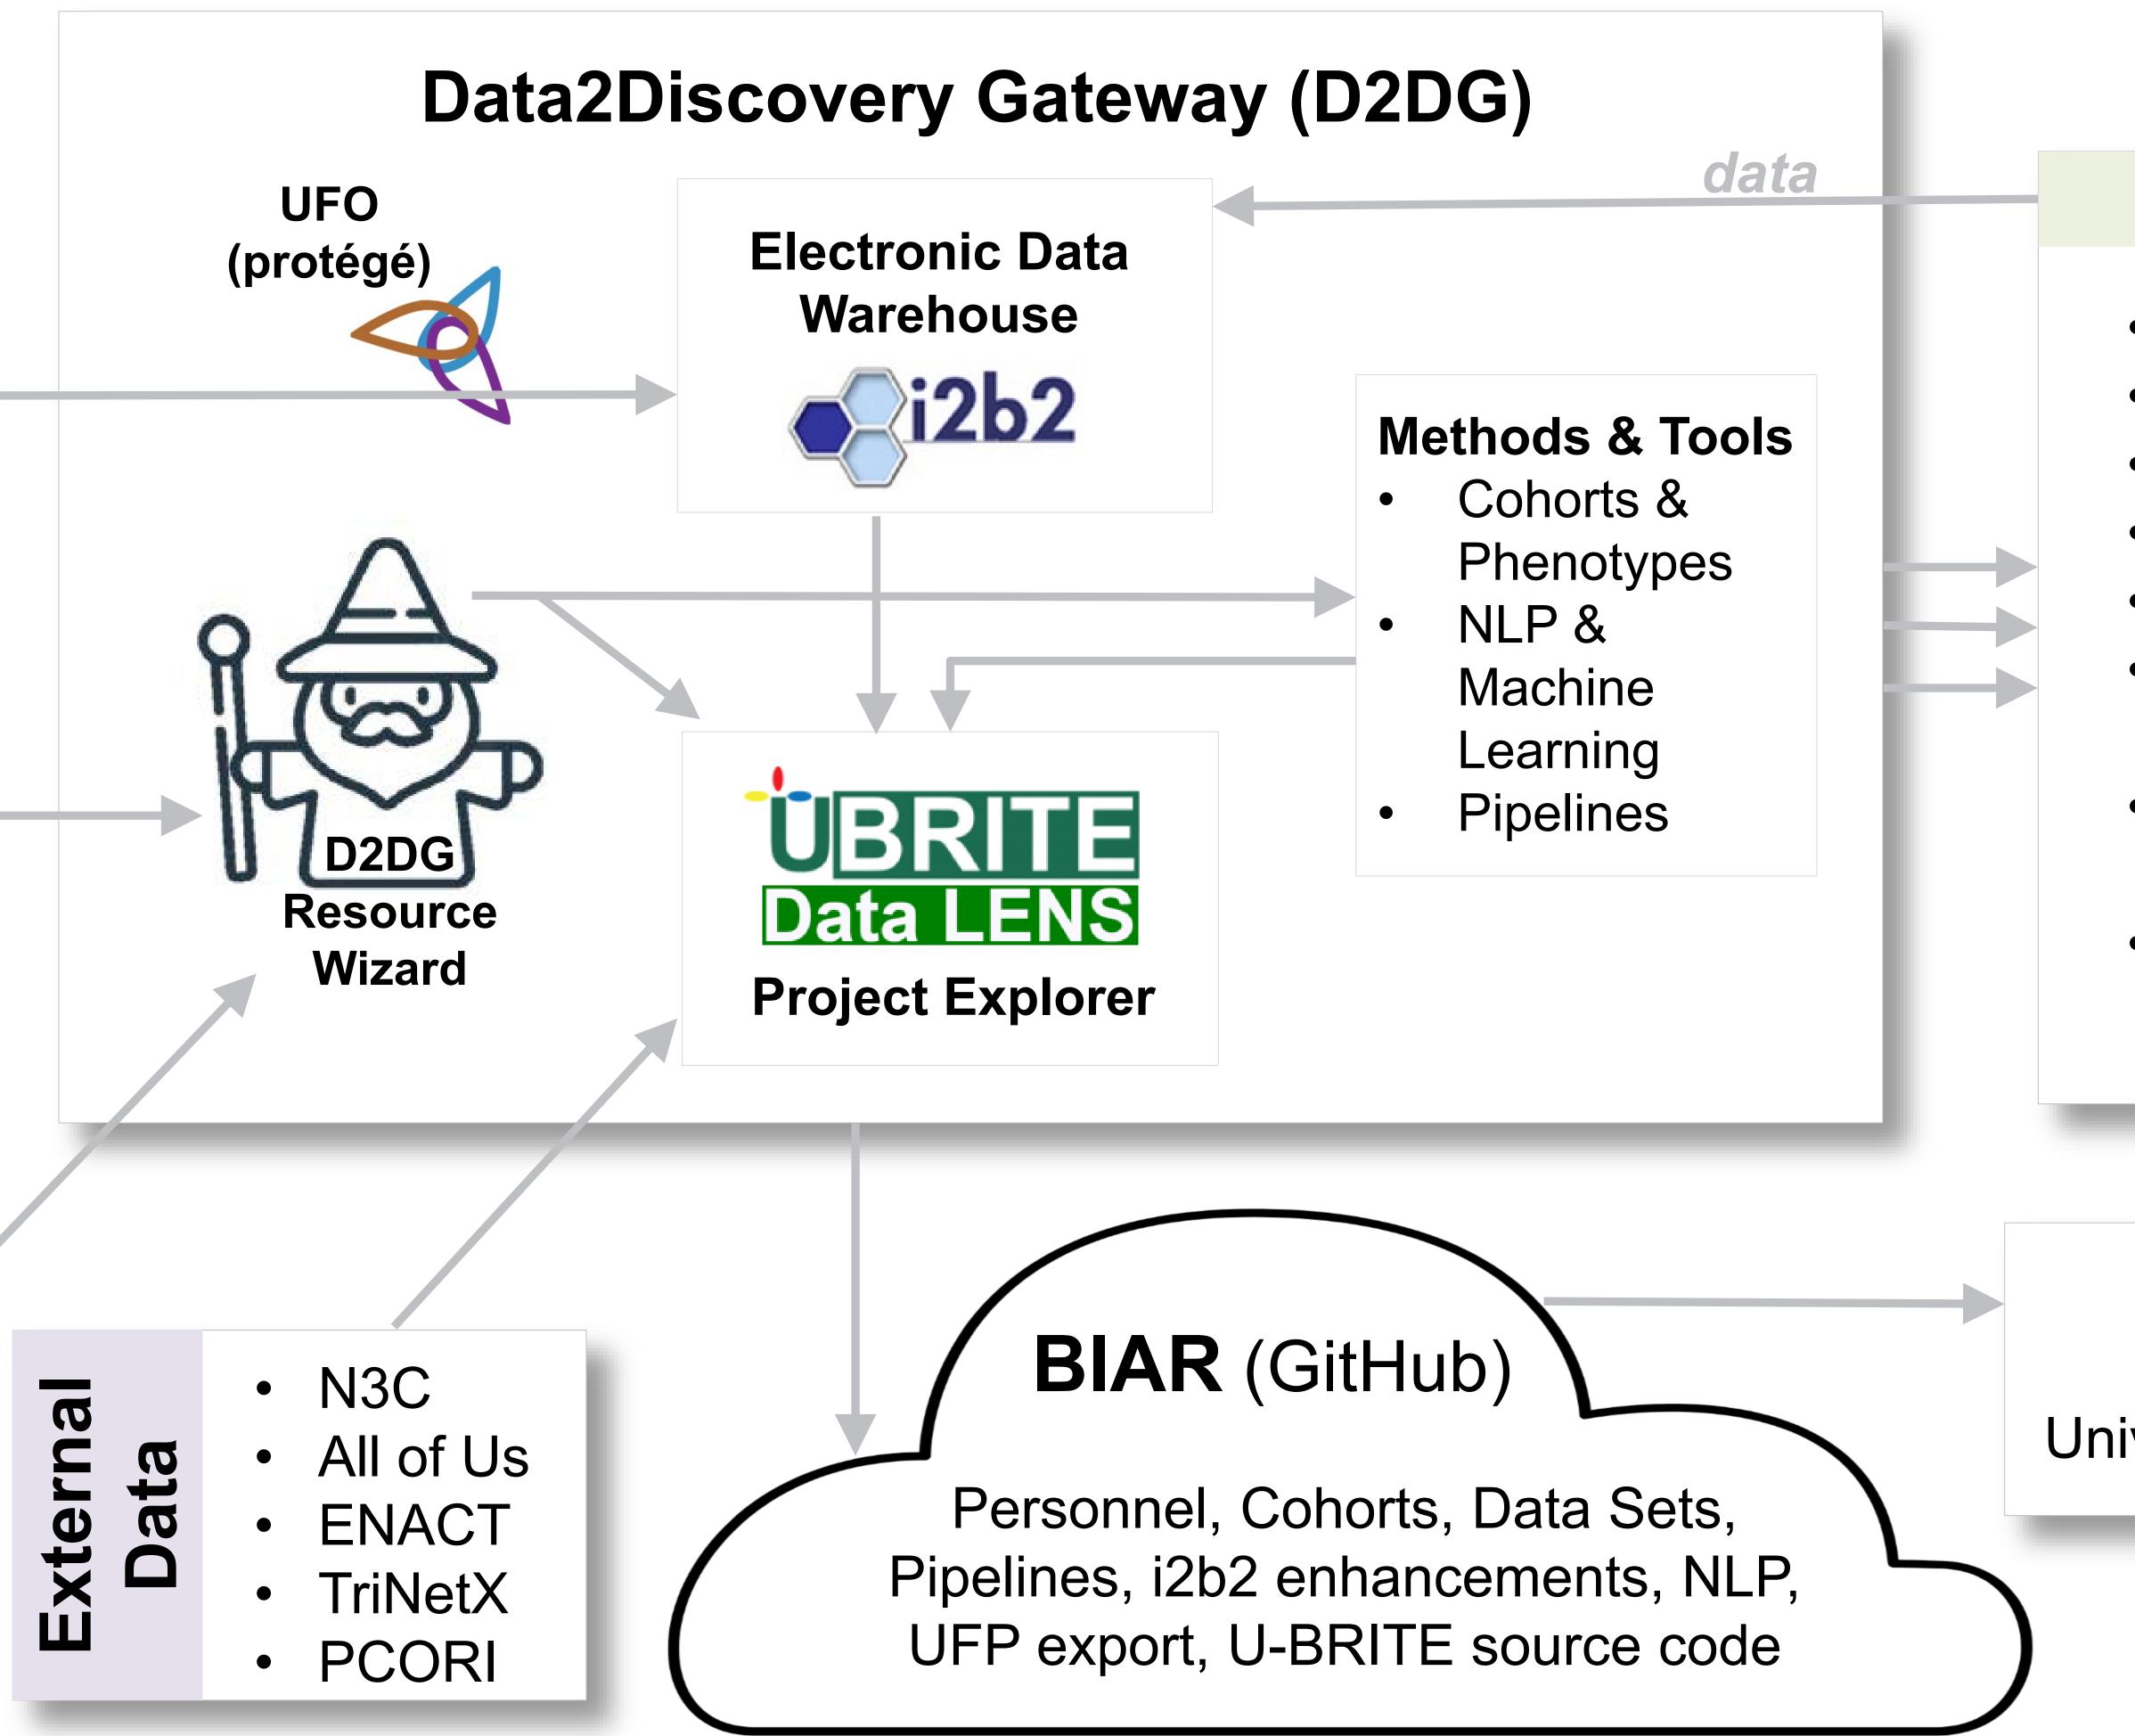

- Informaticians
- Bioinformaticians
- Biostatisticians
- Database Analysts
- Trainers

Researchers/Projects

- CCTS Hub & Partners
- CTSA Consortium
- Others

CCTS Connects

 Shepherding Informatics across the CCTS Partner Network and national CTSA consortia • CCTS BERD leverages CCTS Informatics resources for cohort discovery • Enabling clinical informatics in units like CCTS Specimen Processing and Bioprocessing

Outcomes

- Clinical Data Sets
- Virtual Patient Registries
- Published Discoveries
- Grants
- Collaborations
- Training, Hackathons,
- Kaizen-Education
- Support for Learning
- Health System
- Support for Health
