

THE UAB LUNG HEALTH CENTER

ABOUT

Our **mission** is to advance lung health through innovative research, education, and patient-centered care. Whether you are a study participant or a scientific investigator, we are committed to ensuring that your experience with the UAB Lung Health Center is worthwhile.

LUNG HEALTH CENTER

LHC LEADERSHIP

Mike Wells, MD, MSPH
Medical Director

Amit Gaggar, MD, PhD
Scientific Director

Gabriela Oates, PhD
Director, Population Health Science

TRAINING AND EDUCATION

- T32 training program in lung biology and translational medicine

For more information about the T32 program, scan the QR Code

- Research in Progress seminars

Pictured: Pulmonary Grand Rounds presentation

MEMBERSHIP

- 60+ UAB investigators
- 6 schools, 11+ departments/divisions

Membership is open to all UAB faculty with lung-related research interests

MEMBERSHIP BENEFITS:

- Access to LHC research services
- Access to facilities and expertise
- Pilot funding opportunities
- Networking and collaboration

To become a member

Contact the LHC at 205.934.5555 or scan this QR code

COMMUNITY ENGAGEMENT

Community engagement advances lung health

- Raising awareness through education
- Promoting prevention and early detection
- Building community trust and credibility
- Addressing health disparities
- Informing research and program development

Programs

- **Better Breathers Club:** In-person support group
- **Healthy Communities for a Tobacco-Free Future:** E-cigarette prevention for middle- and high-school students in Birmingham Metro area
- **Pulmonary Function Testing:** On-site PFT testing at community events

RESEARCH

- The Lung Health Center (LHC) facilitates research across the translational spectrum:
 - Basic
 - Clinical and translational
 - Social and behavioral
 - Outcomes and health services
 - Population health
- The LHC supports 98 active research projects

SERVICES

- Participant recruitment
- Regulatory
- Data management
- Biospecimen repository and laboratory services
- Pulmonary Function Testing laboratory
- Lung imaging
- Integrative 'omics laboratory
- Small animal cardiopulmonary physiology services
- Tobacco treatment
- Social Determinants of Health Core
