

## Instructions for Printing Safety Signs and Labels

The document links on this page are designed to for personnel to print safety signage for immediate use.

All signs are PDF files that print a standard 8 ½ by 11 inch formatted document. Some are full color; others are designed to be printed on colored paper. A PDF viewer is needed to print these signs. If you need a reader, go to <http://www.uab.edu/ohs/copyright-credits>.

Stickers for marking equipment and doors are designed to print on standard sized adhesive labels. The corresponding Avery template with dimensions is listed below.

If you have difficulty printing signs or require additional templates to be made available please contact OH&S at 934-2487.

The following large stickers use Avery 5164 shipping labels (3.33" by 4"):

- Biohazard (medium)
- Cancer Hazard
- Caution Acid
- Caution-Base
