

Risk Assessment Matrix

Likelihood		Consequences				
		Insignificant Injury/disease that needs first aid only 1	Minor Injury/disease requiring medical treatment 2	Moderate Injury/disease requiring time away from normal activity 3	Major A fatality/permanent disability 4	Catastrophic Multiple fatalities 5
Almost Certain	5					
Likely	4					
Moderate chance	3					
Unlikely	2					
Rare	1					
Higher the risk rating the more immediate and higher level attention required						
Severe risk		Discontinue Operation/or immediate action required				
Significant Risk		Corrective action needed.				
Moderate risk		Attention indicated				
Minor Risk		Implement practicable control measures
