TRENDING IN TRIALS

Essential Information for Principal Investigators at UAB

Quality Improvement (QI) Self Determination Tool | In partnership with the Center for Outcomes and Effectiveness Research and Education (COERE), the Office of the IRB has developed [a self-declaration tool for certain projects categorized as quality improvement](#). While not all cases of quality improvement studies will be able to use this tool, several projects will benefit from the ability to self-determine that a project does not require IRB review. This tool provides documentation that may be used to support requirements for journals at the time of publication.

MAGI 2024: The Clinical Research Conference | Dedicated to enhancing the quality and efficiency of clinical research, this 3.5-day event is your opportunity to network with key stakeholders from across the industry, including academia, pharma, biotech, CROs, and regulatory bodies, all united in advancing therapeutic and medical device innovations. **April 14-17 in New Orleans.** [Learn more.](#)

Did you know? | The CCTS offers clinical research facilities and support for clinical and translational research involving human participants. Cutting-edge capacities and coordinated expertise ensure good clinical practice. [Learn more.](#)
