Essential Information for Principal Investigators at UAB

Clinical Investigator Training Program Launches October 25th: CITP is a five-week training on the roles and responsibilities of principle investigators in the conduct of clinical research. The program enhances investigator awareness of the administrative infrastructure supporting clinical research at UAB, and promotes its effective utilization to enable efficient time-to-trial-activation. **Application deadline: October 4, 2022.**

Begin the application process.

Research Participant Visits in Oncore are expected to be occurred within 48 hours of time of service. If there are challenges study teams are aware of that would prevent meeting this expectation, please reach out to the Oncore System Administrators at oncore@uabmc.edu. Additionally, the Oncore team is reviewing CTBN reports related to late CTBN submissions and will reach out to the study coordinator if they notice a trend to offer assistance in overcoming potential barriers.

Get Answers to Your OnCore Questions: The Oncore team offers a weekly Q&A session on Tuesday from 11am-1pm to answer any and all Oncore related questions. If it is a question we cannot answer, we will work with you to find the right person who can. Former CBO manager, Mackenzie Roberts, has joined the Oncore team as a System Administrator and also attends the Oncore Q&A session to answer any billing related questions.

Reach Mackenzie anytime at oncore@uabmc.edu.
