

TRENDING IN TRIALS

Essential Information for Principal Investigators at UAB

LATEST UPDATES

- ➔ **Clinical Research Facilities:** The Clinical Research Unit provides investigators and their teams a research environment and broad range of services guided by good clinical practice. The unit equips investigators with essential tools and critical resources, while providing a highly efficient and flexible infrastructure that is sustainable through a comprehensive cost-recovery system. [Learn more.](#)
- ➔ **Specialized Capacities:** The CCTS Bionutrition Unit offers a variety of services to investigators in nutrition-related research. Dietitians are available to help plan, design, and implement the nutritional components of research protocols; recruit and screen research participants; and collect and analyze dietary intake data. [Learn more.](#)
- ➔ **Updated Guidance on COVID-Positive Study Participants:** The updated document includes modifications to the re-consideration of research participants (and study monitors) for research once they have tested positive for COVID-19. It also clarifies possible COVID-19 exposure situations, and how/who research personnel should contact in these situations. [Learn more.](#)
