

Best Doctors®

The Best Doctors in America®

FOUNDED IN 1989 by Harvard Medical School physicians, Best Doctors is a global benefits provider and medical information services company that connects individuals facing difficult medical treatment decisions with the best doctors, selected by impartial peer review in over 450 medical specialty/subspecialty combinations, to review their diagnosis and treatment plans.

Best Doctors' team of researchers conducts a biennial poll using the methodology that mimics the informal peer-to-peer process doctors themselves use to identify the right specialists for their patients. Using a polling method and proprietary balloting software, they gather the insight and experience of tens of thousands of leading specialists all over the country, while confirming their credentials and specific areas of expertise.

The result is the Best Doctors in America® List, which includes the nation's most respected specialists and outstanding primary care physicians in the nation. These are the doctors that other doctors recognize as the best in their fields. They cannot pay a fee and are not paid to be listed and cannot nominate or vote for themselves. It is a list which is truly unbiased and respected by the medical profession and patients alike as the source of top quality medical information.

Best Doctors is a part of Teladoc Health, Inc., the global leader in virtual care successfully transforming how people access and experience healthcare. Teladoc Health partners with the world's leading employers, health plans, and health systems to offer patients across the globe access to care for a broad spectrum of needs.

As part of Teladoc Health, Best Doctors focuses on improving health outcomes for the most complex, critical and costly medical issues. More than a traditional second opinion, Best Doctors delivers a comprehensive evaluation of a patient's medical condition – providing value to both patients and treating physicians. By utilizing Best Doctors, members have access to the brightest minds in medicine to ensure the right diagnosis and treatment plan.

Through its global network of Best Doctors and other critical services, Teladoc Health is expanding access to high quality healthcare, lowering costs and improving outcomes around the world. The company's award winning services are inclusive of telehealth services, expert medical services, mental health services, integrated clinical solutions, and platform and program services.

These lists are excerpted from The Best Doctors in America® 2017-2018 database, which includes close to 40,000 U.S. doctors in more than 450 medical specialty/subspecialty combinations. The Best Doctors in America® database is compiled and maintained by Best Doctors, Inc. For more information, visit www.bestdoctors.com or contact Best Doctors by telephone at 800-675-1199 or by e-mail at research@bestdoctors.com. Please note that lists of doctors are not available on the Best Doctors Web site.

Get your diagnosis double-checked. **It could save your life.**

When you have concerns or doubts about a diagnosis, treatment, or surgery, Best Doctors can help. Our world-renowned medical experts can give you the peace of mind you deserve by providing an in-depth review of your diagnosis to either confirm it or recommend a change.

See if you have Best Doctors as a benefit.

☎ 1-800-223-5003 | 👤 ask your HR representative

The report I received from Best Doctors actually confirmed one of my diagnoses was wrong. **It has changed my life.**

Best Doctors member

We're more than just a list
We're peer-selected as the best medical experts
in the world

This can genuinely help people around the world to get the most appropriate diagnosis and therapy, whilst also being of benefit to treating physicians.

Dr. Otto A. Smiseth
Professor of Medicine, Director of Cardiovascular and Pulmonary Diseases
Oslo University Hospital

Reach more lives.

Best Doctors is now a part of Teladoc Health, the global leader in virtual care. We garner a nationally recognized group of experts, peer-selected as the best in their field. Our doctors serve nearly 40 million members worldwide with a unique suite of services designed to eliminate medical uncertainty in a very uncertain landscape.
