

Professional Development Opportunities in Medical Education!

The **PROSPER-Med2ED Program** welcomes feedback & invites contributions from **faculty, residents, other individuals interested in medical education, & across the clinical campuses/community sites** in the areas below:

- Teaching Foundations, including *Strategies, Essentials, & “Practical Tips”*
- Learning Environment
- Assessing Learners
- Innovative Teaching
- Clinical Reasoning
- Clinical Preceptorship
- Integration of Basic and Clinical Sciences
- Skills Development, including *Teaching Clinical Skills, Effective Communication, Teaching in Teams, & Feedback*
- Educational Technologies & Innovations
- Educational Research & Scholarship
- Professional Development in Medical Education, including *Wellness and Mentoring*

PROSPER-Med2ED professional development opportunities are specifically in building:

- 1) **Med2ED e-resource library for faculty development in medical education** (*Teaching & Learning | Educational Research & Scholarship | Professional Development*). *This Med2ED e-resource library may include a variety of existing & new resources. We are especially interested in resources that you have found of a particular benefit in your experiences, resources that individuals at each of the clinical campuses may recommend, and/or specific topics that you think would be beneficial to you, your teaching faculty, and others to include. No contribution is too small!*
- 2) **New Medical Educators Certificate Series** faculty development curriculum.
- 3) **New PROSPER Web2U e-learning** faculty development curriculum.

PROSPER-Med2ED also seeks guest presenters for face-to-face & e-learning topics.

Potential topics are below but other topics are welcome based upon suggestions and interest! Presenters consent for their presentations to be used in the PROSPER-Med2ED program and by the UAB School of Medicine & receive recognition for being a PROSPER-Med2ED presenter, as well as may use their presentations in other venues to contribute to their professional career growth. PROSPER onward!

PROSPER-Med2ED is a collaborative partnership in the Department of Medical Education. It is an outgrowth of the past HSF-GEF PROSPER Educator Enrichment Program grant & Dean’s Research Awards program that provided opportunities & support for faculty innovations in medical education in the UAB School of Medicine undergraduate medical school curriculum.
