

# SPECIAL SPRING SEMINAR SERIES

## *Core Concepts in Kidney Research*

- May 5, 2014**    **“Acute tubular necrosis and repair”**  
James Harms, MD, Fellow, UAB Division of Nephrology  
*And*  
Lisa M. Curtis, PhD, Asst. Professor of Medicine, UAB Division of Nephrology
- May 12, 2014**    **“Diabetic nephropathy: the role of bioenergetic mitochondrial health”**  
Dana Rizk, MD, Assoc. Professor of Medicine, UAB Division of Nephrology  
*And*  
Victor Darley-Usmar, PhD, Professor, Department of Pathology
- May 19, 2014**    **“Novel presentations of acute kidney injury / Diverse animal models”**  
Denyse Thornley-Brown, MD, Assoc. Professor of Medicine, UAB Division of Nephrology  
*And*  
Lisa M. Curtis, PhD, Asst. Professor of Medicine, UAB Division of Nephrology
- June 2, 2014**    **“CKD and HTN physiology: Common themes of regulation in blood vessels and tubules”**  
Eric Judd, MD, Fellow, UAB Division of Nephrology and Vascular Biology and Hypertension Program  
*And*  
Jennifer Pollock, PhD, Professor of Medicine, UAB Division of Nephrology
- June 9, 2014**    **“Dialysis vascular access dysfunction: From bench to bedside”**  
Michael Allon, MD, Professor of Medicine, UAB Division of Nephrology  
*And*  
Timmy Lee, MD, Assoc. Professor, UAB Division of Nephrology
- June 16, 2014**    **“Fibrosis and the peritoneal membrane”**  
Eric Wallace, MD, Asst. Professor, UAB Division of Nephrology  
*And*  
Joanne Murphy-Ullrich, PhD, Professor, UAB Department of Molecular & Cellular Pathology
- June 23, 2014**    **“Antibody-mediated allograft injury / B cell biology in transplantation”**  
Vineeta Kumar, MD, Assoc. Professor of Medicine, UAB Division of Nephrology  
*And*  
Frances Lund, PhD, Charles H. McCauley Professor and Chair, Dept. of Microbiology

Zeigler Research Building  
Conference Room 644  
(ZRB 644)  
12:00-1 pm
