

You are receiving this email because you recently requested access to one or more applications for your mobile device.

First Step: Before device enrollment may be completed, you will need to setup MFA (Multifactor Authentication). If you are already enrolled, you may skip this step. Please access the following link to setup MFA: [MFA Enrollment](#)

Once MFA is setup, you may proceed with any of the following:

Android Devices

Please update your Android prior to enrollment.

Intune Enrollment: InTune will provide you access to your email, personal calendar, contacts and will connect you to the uabhs_mobile Wi-Fi. Please use the following instructions in order to install and enroll InTune.

If you are migrating from MaaS360 to InTune, click here: [Removing MaaS360 - Installing InTune](#)

If you have not installed MaaS360 and are installing InTune for the first time, click here: [InTune for New Device](#)

****MaaS360 has been retired and is no longer used for UABMC device enrollment****

If the knowledge base articles above are not what you were needing, please contact the Helpdesk at (205) 934-8888 or helpdesk@uabmc.edu

Thank you,
Application Support Team
