

Center for Clinical and Translational Science Clinical Research Support Program (CRSP) – CRSP Services

Meredith Fitz-Gerald, Director

CCTS

CRSP Services available:

Research Coordinators (skilled nurse and non-nurse)
Coordination of Research Study Activities

Regulatory Support

Budget Preparation & Negotiation

Monitoring

Clinical Quality Assurance Services

Data Collection & Entry

Mentoring & Consulting

ClinicalTrials.gov

The CCTS Clinical Research Support Program (CRSP) provides a “**Best Clinical Practice**” environment and extends the mission of the CCTS to facilitate the **highest quality of clinical research across campus**. Today, CRSP is a highly productive, successful, and cost-effective research support program which provides a variety of services across the lifecycle of a clinical research study. **Our goal** is to support the initiation and implementation of clinical research by training investigative faculty and staff and by providing quality services that ensure rigor and transparency in trials leading to improved health and wellness for our community.

Areas served by CRSP in 2018 include...
